SUMMARY

Results-driven PM with 5+ years of experience scaling AI-powered products from concept to global market. Proven track record in driving double-digit revenue growth and optimizing operational efficiency through automation. Expert at bridging complex technical architectures with business strategy to lead cross-functional teams and deliver data-informed, user-centric solutions.

EXPERIENCE

Mogno AI, São Paulo – Senior Product Manager | AI & Plataforma

OCT OF 2025 - JUL OF 2026

Led the end-to-end development of an AI-powered platform, transforming an internal initiative into a global product line.

- Defined strategic roadmap and analytics framework, resulting in 54% of user activation rate and successful market entry.

Accountfy, São Paulo – Product Manager | AI & Analytics

DEC OF 2024 - OCT OF 2025

Led product strategy and roadmap execution for AI and Analytics squads, driving product-led growth and international expansion.

- Selected for Google for Startups acceleration program due to innovative AI product architecture.
- Increased monthly revenue by 11% via strategic upsell initiatives.
- Enhanced platform cohesion and UX, reducing support tickets volume by 22% through AI-driven automation.
- Established data-centric culture across squads by implementing standardized KPI frameworks and executive dashboards.

Accountfy, São Paulo – Product Manager | FP&A & Advanced Functions

MAY OF 2024 - DEC OF 2024

Managed the end-to-end lifecycle of automation and FP&A products, driving feature adoption and internal efficiency.

- Launched new automation features, increasing upsell by 3–5% month-over-month.
- Optimized internal workflows, significantly improving team productivity through feature automation.

Accountfy, São Paulo – Product Owner | FP&A

JUL OF 2022 - MAY OF 2024

Led strategy and delivery for core FP&A products, focusing on user retention and onboarding scalability.

- Reduced churn by 5 p.p./month and positively impacting LTV and revenue via a complete redesign of the core product experience.
- Reduced internal onboarding time by 85% by developing a dedicated internal support product, later scaled to a full squad initiative.

Accountfy, São Paulo – Junior Product Owner

DEC OF 2020 - JUL OF 2022

- Improved product robustness, reducing support tickets by 34% and increasing CSAT by 20 p.p. through data-informed backlog prioritization.

Euphoria Group, Maringá – BI Analyst & Data Engineering

FEB OF 2020 - DEC OF 2020

- Reduced customer delinquency by 32.5% via predictive financial dashboards.
- Standardized BI/ETL processes, significantly increasing data reliability across the organization.

Euphoria Group, Maringá – Internships (Strategic Planning, BI & Project Management)

FEB OF 2017 - FEB OF 2020

- **Led corporate strategic planning cycles** across 10 business units, **achieving 76% of defined OKRs**.
- **Increased delivery reliability** and team communication efficiency through the implementation of agile methodologies (SCRUM/PMBok).
- **Increased CSAT by 18 percentage points**.

Teclaser, Maringá – IT and Engineering Intern

SEP OF 2016 - JAN OF 2017

- **Engineered an inventory and warehouse management system** that optimized production efficiency, **reducing storage costs by 22%, cutting scrap waste by 32%, and increasing monthly production capacity by 15%**.
